

This is Dash. Dash is Feline Leukemia Positive. He is 5-6 months old. He must be an indoor cat and cannot be around other cats who are negative for Feline Leukemia. Don't let the diagnosis scare you. Dash can live a long healthy life with the right care. He is such a love bug! He just wants to be held and likes to hang out on your shoulder when he gets tired from all the playtime. He has been visiting the Town Clerk's Office so feel free to come in and ask any questions you may have about Dash. Dash is ready for his forever home.
