**Detoxification Services**

Detoxification services can be accessed if you are or someone is in need of detoxification from substance use. To get directly into a detoxification unit, either call and ask if they have open beds or use this new online tool which will tell you where there are available beds: [http://mabhaccess.com/m/login.aspx](http://mabhaccess.com/m/login.aspx)

Each day beds will open so it’s important to continue to call or check online.*

*This site can be used to find the availability of multiple services: You will not need to log in. Select “Substance Use Service Search” and the following will be your options: ESP, ATS, CSS, TSS, Level IV detox, Methadone treatment, and various outpatient services. Your next choice, “Service For” asks for the town where you live, and the number of miles you are willing to travel to get to treatment.*

District Attorneys’ Offices

District Attorneys’ Offices represent the Commonwealth of Massachusetts in the prosecution of criminal offenses. The District Attorney, with a staff of Assistant District Attorneys and victim advocates, provides legal representation to victims of alleged crimes and is involved with many community crime prevention programs.

Specially trained victim advocates help victims navigate the court system.

Western Massachusetts Veterans Treatment Court

Chief Probation Officer, Sean McBride sean.mcbride@jud.state.ma.us/

Holyoke District Court

The Veterans Treatment Court serves the needs of court-involved veterans who may benefit from alternatives to incarceration due to the physical and mental effects of their military experiences. The court sits weekly with a dedicated judge. Defendants are veterans who plead guilty to a criminal charge and enter the court voluntarily. Instead of being sentenced to jail time, they will enter an 18-month supervised probation period with regular drug and alcohol testing. Veterans will participate in the treatment such as detoxification for substance abuse problems or mental health treatment and will be matched with a veteran mentor. If they are homeless, they will get help finding housing.
**Veterans Assistance**

The Veterans Blue Book is a guidebook offering contact and general information about local, state, and federal resources for Western Massachusetts veterans and their families.

Link to The Blue Book on the Northwestern District Attorney's Website: https://northwesternda.org/sites/default/files/Documents/Vets%20Blue%20Book%20updated%20March%202016.pdf

ADDRESSING OUR MOST URGENT COMMUNITY HEALTH NEEDS
Mental Health and Substance Abuse Treatment Services

- Phase One – Residential substance abuse center with intensive outpatient services
- Phase Two – Residential adolescent substance abuse treatment
- Phase Three – Inpatient detox and inpatient mental health
- 85-bed, on-site continuum of care for behavioral health patients
- Resource navigation and case management
- Wide array of services to augment treatment and support recovery

The Franklin Recovery & Northern Hope Centers

The Franklin Recovery Center -- a first step in recovery for people 18 or older who are seeking recovery from active use of substances such as opiates, alcohol and benzodiazepines. The Northern Hope Center offers a next step in recovery for those ready to leave the Franklin Recovery Center, located in the same building.

We help participants build an individualized plan for a life of wellness and supported recovery in all its phases.

298 Federal Street (Route 5), Greenfield, MA
For more information or to make a referral, please call: 413-733-1423 or 413-737-2493

The Quabbin Retreat
Member of the Haywood Healthcare Family
For more information visit www.haywood.org

25
A voluntary program for non-violent offenders with substance abuse issues, primarily between the ages of 18-30, charged with certain drug-related offenses. Eligible candidates have the opportunity to receive comprehensive substance abuse treatment services in lieu of prosecution through the traditional court process.

Completing the diversion program requires full participation in an individualized treatment plan with case management for at least six months. Clinical evaluations and treatment plans are administered by clinicians from Clinical & Support Options and Center for Human Development and include a range of inpatient and outpatient services and support designed to help participants become drug-free, functioning members of society.

Persons identified by the District Attorney’s Office will:
- Receive a thorough clinical evaluation
- Participate in intensive treatment;
- Be subject to strong case management, including drug screening when applicable;
- Be offered a recovery coach to assist with long-term recovery and sobriety.
FRANKLIN FAMILY DRUG COURT
Help for families struggling with substance use disorder

Franklin Probate and Family Court
101 Munson Street, Greenfield, MA 01302
(413) 775-7452

WHY PARTICIPATE IN FAMILY DRUG COURT?
- Children of all ages suffer when a parent abuses drugs or alcohol.
- Every child deserves and wants to have the best parent he or she can have

THE GOAL OF THE FRANKLIN FAMILY DRUG COURT IS TO TREAT THE ENTIRE FAMILY BY:
- Assisting the parent in his or her recovery
- Addressing the needs of the child and caregiver
- Removing the stigma of addiction

WHAT ARE THE SERVICES OF THE FAMILY DRUG COURT?
The Franklin Family Drug Court offers services for families struggling with substance use disorder. It is a voluntary program that may help your family. Services for children and caregivers include:
- Trauma assessments and follow-up treatment
- Education about the disease model of addiction
- Referrals for resources and supportive services for the caregiver

“The best advice I can give parents is that life is so much better without drugs. I wish every addict could learn that and feel the way I do. It is not an easy or a fast process, but it is so worth it. Things will get better.”

Molly, Drug Court Graduate, 2 years in recovery
Addiction is a disease, an illness -- not a symptom of bad moral character or a weak will. Addiction alters the pathways of the brain to such a degree that people in its grip may engage in activities that destroy their lives and the lives of the people who care for them. In effect, the very behavior that lands them in jail or on the streets can be among the symptoms of the disease.

Surgeon General Vivek Murthy had this to say at the 2016 National RX Drug Abuse and Heroin Summit: “In the end, it may be that compassion is the most important resource for overcoming this opioid crisis. Compassion is what allows us to stop judging and start helping.”

This resource guide was created by our Northwestern District Attorney’s Office in collaboration with many community partners. We want people who need help to find it.

Sincerely,

David E. Sullivan
Northwestern District Attorney
